

CALL FOR PAPERS

**ASSA Session:
COVID-19, real uncertainty, and monetary policy**

Central Bank Research Association

January 3-5, 2021

The Central Bank Research Association (CEBRA) is organizing a session on **COVID-19, real uncertainty, and monetary policy** at the 2021 ASSA meetings in Chicago on January 3-5. The session aims to bring together top researchers from academia, central banks, and other policy institutions to present the latest research findings related to COVID-19, real uncertainty and monetary policy.

Authors interested in presenting research related to the topic at this conference should submit a PDF of their paper to idd@cebra.org. The deadline for submissions is May 25, 2020. Authors of accepted papers will be notified by June 15, 2019. The organizing committee includes Raphael Schoenle (session chair), Stephen Cecchetti, and Michael Weber.

By submitting your paper to idd@cebra.org, you confirm that you are a CEBRA member or agree to become a member. Membership is free of charge. CEBRA's privacy policy can be accessed here: <https://cebra.org/contact/>

Please feel free to circulate this call for papers to your colleagues.

Session Organizers:

Stephen Cecchetti – Brandeis University, NBER and CEPR

Raphael Schoenle (chair) – Federal Reserve Bank of Cleveland, Brandeis University, CEPR

Michael Weber – Chicago Booth, NBER and CEPR
